updates, term dates and up & coming events

Outside activities:

Now that the weather is getting cold and wet, we would like to ask you to bring appropriate outdoor clothing for your child. The children benefit massively from exploring outside, and the damp weather brings exciting new things to explore such as mini beasts! Please ensure that your child has a warm coat, gloves, and wellington boots so they can safely explore the outdoors. When the rain is too heavy, we will be exploring under the shelter outside. Please label these items and practice putting them on with your child.

Thank you.

Date: 12.11.26

Hello parents and carers!

Thank you for another wonderful week. If you are still waiting for or missed your parents' consultation, please check with your class teachers to make sure you get a chance to discuss your child's progress.

Our Learning	
This Week	Next Week
In maths, have been working with your children to really support their understanding of number and counting. The children have done so well! Remember there are lots of opportunities to practice counting day-to-day, while playing, cooking together and walking to and from school.  Throughout the week, we have been working on build our strength to get the children ready for writing. The children have been enjoying playdough disco, Write-Dance and cutting activities. You could even try your hand at making playdough at home with your child – it's an easy, cheap and fun activity to keep children entertained indoors.  Finally, we have started our phonics journey. We use the Twinkl phonics scheme – our first sound is **/s/**. "There was a stripy snake hissing on the sandy path! It hissed s as it slithered along." 	Next week we will be learning how to sequence a story using pictures. What happens first? And then? After that – You can support your child at home by reading their favourite stories and see if they can tell you what happens in the book. We will also be making porridge like in the story Goldilocks and the Three Bears. Have you made porridge with your child before? Stirring the bowl is really good for developing their hand strength and coordination! Let them decorate their porridge with yummy fruits and talk about healthy eating habits with them.  In maths, we will be using language such as big, medium and small to compare objects. Then we will look at ordering items from biggest to smallest, can your child put items in order? Let them show you, they are so excited to show you how much they are learning. 

Next Week's Word of the Week:

Size

Next week's rhyme of the week:

Ba Ba Black Sheep

General Notices

Parent Curriculum Meetings:

17th November 9am for AM class parents.
17th November 2pm for PM class parents.

Home Time

Your child's **safety** is **extremely** important to us. We ask that you form a queue and continue to be patient when we are calling your children's names. If somebody different is picking up your child, you must inform staff or call the school before pick up time. We will not send your child home if you do not inform staff of any changes. Therefore, please let us know in advance.

Punctuality & Absence

If your child is going to be absent, for whatever reason, please ensure that you ring the school office by 8.40am on 020 8573 3389 press **option 1** and leaving a message, stating your child's full name, class, and reason for absence.

Hygiene and Potty Training

Children should be coming into school without nappies and pull-ups. Please talk to us about any concerns so we can support you and your child to be nappy free. The local family hub can also support you with this. We can also provide you with a leaflet on potty training.

Labelling your child's belongings

Please ensure that your child's belongings are labelled so we can identify who it belongs to.

Reading with your child

Please make time to read with your child! The latest data from the National Literacy Trust found that only 45.9% of parents of children aged 0-5 years read with their child daily, yet reading has so many benefits. Reading not only supports your child's academic ability, but builds confidence in themselves, sparks creativity and explore new ideas. Start small, reading to your child at bedtime if you don't already – it doesn't have to be in English. Sharing stories in your home languages are important too!
Thank you.
