

# Science

## EYFS

Children learn about similarities and differences in relation to places, objects, materials and living things. They make observations of animals and plants and explain why some things occur, and talk about changes.

## Year 1

Children will develop scientific knowledge and understanding, learn to answer scientific questions about the world around them. Children will learn about plants, animals, materials and weather.

## Year 2

Children understand implications of Science, today and for the future. All living things and habitats, healthy eating and properties of materials.
